

Exercise 0.1. Read to page 202 in Bird.

Exercise 0.2. Do problems 6.2.2 and 6.2.3 on pp. 191 of Bird.

The type for the map and fold function on **Stree** are as follows:

```
stree_map :: (Ord b, Ord a) => (a -> b) -> Stree a -> Stree b
stree_fold :: (Ord a) => (b -> a -> b -> b) -> b -> Stree a -> b
```
